Operator(s):	Pacific National		
91km Corridor/line:	Dubbo to Goobang Junction / Parkes		
Effective From:	29/01/2026	Effective To:	29/03/2026

Reference Documents:

Route Access Standard:	General Information
TOC Manual:	TOC – Section 8 and 10

General Details / Operating Condition:

A Waiver to the conditions of the ARTC TOC Manual and Route Access Standard General Information is issued for the movement of NGPF36074N from Dubbo to Goobang Junction / Parkes.

Movements to occur as follows:

Marshalling requirements:

- Wagon shall be moved in tare condition.
- Wagon shall be moved individually, with no other wagons.

General Movement Conditions:

- Wagons shall be inspected and prepared as per Pacific National document “RSN E 25-054 Transfer of NGPF36074N from Dubbo to Parkes”.
- Movements shall take place during daylight hours to assist with visual inspection.
- Train shall not exceed 60 km/h.
- During inspections, if the wagon is found with wheels not rotating or with abnormal noises from its bearing, the train is to be stopped and not moved until certified and/or detached at a suitable location. Bearing temperature shall not exceed 90 degrees Celsius.
- A roll-by inspection shall be performed on departure from Dubbo and on arrival in Parkes
